

5308

Downy Mildew Resistance with Top-End Yields

- Late, tall, open-headed, bronze hybrid with excellent top-end yield potential
- Downy Mildew resistance
- Best if kept in its maturity zone but can move north

Maturity
Full
Days to Mid-Bloom
71

Product Features

Agronomic Characteristics			
Seedling Vigor	2	Stalk Quality	3
Plant Height	2	Tillering	3
Grain and Head Type			
Grain Color	Brz	Head Type	1
Exertion	5	Uniformity	3
Drydown	3	Test Weight	3
Weathering	4	Greenbug Resistance	-

Performance Potential

Yield for Maturity	9	8	7	6	5	4	3	2	1
Yield Under Stress	9	8	7	6	5	4	3	2	1
Irrigated Environment	9	8	7	6	5	4	3	2	1
Dryland	9	8	7	6	5	4	3	2	1

Diseases

DM-PATH1	9	8	7	6	5	4	3	2	1
