

5401

Consistent Yield Leader

- Handles a wide range of soil conditions and has performed well on higher pH ground
- Very good stalk quality and good stress tolerance
- Consistent high yields on both dryland and irrigated
- Tall plant type with good head exertion and high test weight grain

Maturity

Med-Full

Days to
Mid-Bloom

68

Product Features

Agronomic Characteristics			
Seedling Vigor	3	Stalk Quality	3
Plant Height	2	Tillering	4
Grain and Head Type			
Grain Color	Red	Head Type	3
Exertion	2	Uniformity	4
Drydown	3	Test Weight	2
Weathering	3	Greenbug Resistance	E

Grain Sorghum

©2009 Syngenta Seeds Inc. 1-9 Scale: 1=Excellent, 9=Poor, -=Not Available, NA=Not Applicable.
 Head Type: 1=Open, 9=Tight. Drydown: 1=Fast, 9=Slow. Greenbug Resistance: C=E=Biotype C and E, C=Biotype C, E=Biotype E, T=Field Tolerance, N=None Tolerant. All ratings, including plant height, may vary with growing conditions. Abbreviations: DM-Path1=Downy Mildew Resistance (Pathogen 1), DM-Path3=Downy Mildew Resistance (Pathogen 3), MDMV-A=MDMV Resistance (Strain A), HS=Head Smut.
