

5556

Widely Adapted, Yield Leader for the Mid to Late Market

- Medium-late, medium height, semi-open head, red hybrid
- Consistent yield across all environments
- Tremendous disease package to go along with top-end yield
- Not recommended for the Upper Coast of Texas

Maturity
Med-Full
Days to Mid-Bloom
67

Product Features

Agronomic Characteristics			
Seedling Vigor	2	Stalk Quality	2
Plant Height	4	Tillering	4
Grain and Head Type			
Grain Color	Red	Head Type	2
Exertion	2	Uniformity	2
Drydown	3	Test Weight	4
Weathering	3	Greenbug Resistance	C

Performance Potential

Yield for Maturity	9	8	7	6	5	4	3	2	1
Yield Under Stress	9	8	7	6	5	4	3	2	1
Irrigated Environment	9	8	7	6	5	4	3	2	1
Dryland	9	8	7	6	5	4	3	2	1

Diseases

DM-PATH1	9	8	7	6	5	4	3	2	1
DM-PATH3	9	8	7	6	5	4	3	2	1
MDMV-A	9	8	7	6	5	4	3	2	1
HS	9	8	7	6	5	4	3	2	1
