

H-307

Top Performance with Stability in an Early Hybrid

- Superior early vigor for early planting
- Widely adapted to all yield environments
- Tall for an early hybrid with a thick, robust canopy
- Outstanding uniformity with great eye appeal

Maturity
Early
Days to Mid-Bloom
60

Product Features

Agronomic Characteristics			
Seedling Vigor	2	Stalk Quality	2
Plant Height	2	Tillering	4
Grain and Head Type			
Grain Color	Red	Head Type	1
Exertion	3	Uniformity	2
Drydown	3	Test Weight	3
Weathering	3	Greenbug Resistance	-
